

Spinney Pre-school Mission Statement

The Spinney Preschool believes in the importance of quality early experiences as stepping stones for future success. We strive to provide an enriched preschool environment that meets the personal, social and emotional, communication, Language and literacy, problem solving, reasoning and numeracy , knowledge and understanding of the world, physical, and creative development for children in our care. Our Pre-school, families, and community will work together to provide the foundation for lifelong skills and learning. Parents and carers are vital to the group to achieve these goals and they are always very welcome to stay and help.

Spinney pre-school offers comprehensive care and education to all children who attend the setting. In a carefully planned environment, which recognises individual needs and fosters independence and socialisation, your child will be encouraged to develop to their full potential. Spinney Pre-school offers the children an environment where they will be treated with kindness, patience and courtesy. Each child's individuality is respected and cherished and in their turn, the children will learn that acquiring skill and learning will be fun.
