

Parents / Carers

Parents/Carers are the children's first educators and our role is to support that important work. We will keep new adults aware of the groups systems and policies. We ensure that they are informed regularly about their children's progress and ensure that they have opportunity to contribute their own skills, ideas and knowledge to the group.

Parents/Carers share in the record keeping of their children and are kept informed about meetings, workshops and training that is on offer. We have an annual meeting where parent/carers are invited to come along at a time suitable for most Parent/Carers to avoid anyone excluded. All the parents/carers are informed about curriculum. Keyworker groups and are made welcome into the group. We have an information sheet for helpers that inform them what to do if they stay and to help them feel part of the team. The Supervisor welcomes them all in the morning but makes herself available at the end of every session for individual meetings if needed.

Spinney Pre School has a web site that is changed every week, so Parent/Carers are informed what the children are doing in the setting, as well as other useful Pre School information.
